Dear Parents

Positive COVID-19 case

This morning we were made aware that a Year 8 student at our Walnut Tree campus has tested positive for COVID-19.

The student has not been in school since 20 November as they were already self-isolating due to someone in their household having tested positive.

Again, as a result of this family doing the right thing and following the guidance, no students or staff will need to self-isolate.

We continue to be very grateful to families who follow the rules as it helps to limit the impact this virus is having on the wider school community.

Yours sincerely

Michelle Currie
Executive Principal
