16 November 2020

Dear Parents

Positive COVID-19 case

This afternoon we were made aware that a Year 11 student at our Walnut Tree campus has tested positive for COVID-19.

The student has not been in school since 6 November as they were already self-isolating having been a close contact of someone in the community who later tested positive. This contact was before the current lockdown.

As a result of this family doing the right thing and following the guidance, no students or staff will need to self-isolate.

Yours sincerely

Michelle Currie
Executive Principal
